

Endangered, Vulnerable and Near Threatened

Flora of Bahrs Scrub

INVITATION

SBSA Bahrs Scrub Flora Booklet Launch

Saturday, October 23, 2010

Beenleigh Bowls Club

Hanover St

Beenleigh

11:00am – 12:00pm

Come along and discover the precious, rare plants found right here in Logan at Bahrs Scrub

**A photographic description of the unique and valuable plant species of the Bahrs Scrub Precinct,
compiled by renowned local botanist Glenn Leiper produced with the assistance of**

Logan City Council EnviroGrant.

Bahrs Scrub dry rainforest is one of the last remnants of a highly specific and limited type of Australian rainforest. Logan City and its residents are extremely fortunate to have this unique vegetation within our boundaries.

We look forward to seeing you and your guests at our booklet launch.
