25-39 North Street Logan Village QLD 4207

Please RSVP to **Kathy Faldt** email: kfaldt@gmail.com

*Healthy Waterways has launched a **Plastic Pollution Revolution** to create a movement of people who are committed to reducing their plastic footprint and help fight against the staggering amount of litter entering South East Queensland's waterways.*

Waterway litter, particularly plastics, pose a serious threat to our turtles and other marine wildlife. Current research shows that up to 30% of turtle deaths in Moreton Bay are caused by the ingestion of plastic litter. Hopefully BAG IT will convince you to join the revolution!
